

Clinical Adviser

East of England

Segun Bamidele

 07785 440251  segun.bamidele@baywater.co.uk

We are pleased to introduce Segun Bamidele, the Clinical Adviser for the East of England region.

Segun is an experienced Respiratory Physiologist who has worked within a Physiology Diagnostic Department, where he was responsible for conducting lung function tests, sleep studies and ambulatory assessments. Segun also has oncology experience and has recently been involved with oncology research during his studies as a Precision Medicine Scientist.

Segun's role ensures that Healthcare Professionals are familiar with how the home oxygen service works, equipment suitability for patient needs, and how to order oxygen safely.

Segun has experience training staff and patients to use medical equipment safely. He looks forward to working within an oxygen training capacity and supporting Healthcare Professionals in the East of England.

Segun is available to support safety related discussions and risk management including attending multi disciplinary team meetings. He will also escalate safety concerns highlighted

by Baywater Healthcare to Healthcare Professionals responsible for service user care.

Within his role, Segun will play an active part in Fire and Rescue Service Meetings and clinical forums.

Segun has great insight into Home Oxygen Assessment and Review and will play an active part in meeting Baywater Healthcare's Always Be Caring value. He will be the main point of contact for Healthcare Professionals, helping with patient difficulties or concerns.

Please contact Segun using the contact details above if you require support.
